Professional Summary

2026 Computer Engineering graduate (CGPA: 8.30) with 12+ months of internship experience writing high-quality, scalable code in Java/Spring Boot, Python, and JavaScript (React, Node.js). Delivers end-to-end from requirements to testing and production with REST APIs, SQL/NoSQL databases, Apache Kafka, Docker, CI/CD, and foundational AWS cloud knowledge (AWS Cloud Practitioner Essentials); achieved a 67% performance gain, resolved 40+ production issues, and completed 20+ code reviews.

Technical Skills

Programming: Java (Collections, Streams & Lambdas, multithreading/concurrency), Python, JavaScript, TypeScript, SQL; Object-Oriented Programming (OOP), Data Structures & Algorithms

Frameworks: Spring Boot, React.js, Node.js, Express.js, FastAPI, Django, Flask; Angular (coursework-level); REST API design

Databases & Messaging: PostgreSQL, MySQL, MongoDB, Redis, Apache Kafka; SQL query optimization, performance tuning

DevOps & Tools: Docker, Git/GitHub, CI/CD pipelines (GitHub Actions), AWS (Cloud Practitioner Essentials), Vercel, Postman

Machine Learning & AI: LightGBM, XGBoost, Scikit-learn, LLM integration, agentic AI pipelines (LangGraph); AI-assisted development (GitHub Copilot, Cursor)

Testing & Practices: JUnit, Mockito, unit & integration testing, code reviews, Agile/Scrum, SDLC, technical documentation

Professional Experience

Artificial Intelligence Intern — Oct 2026 – Present
CTC Tech Services

- Developing scalable backend components in Java, Spring Boot, and Python with REST APIs and Kafka-based event processing for fraud detection, risk analysis, and security monitoring; integrating open-source machine learning models (LightGBM, XGBoost).
- Building Apache Kafka producers and consumers, writing automated unit tests (JUnit, Mockito), and working with PostgreSQL, Redis, and Docker, with explainable, audit-logged, tenant-isolated design.

AI-ML Developer Intern — Aug 2026 – Oct 2026
MR Network, Pune (On-site)

- Developed and maintained a full-stack Employee Management System (Python/Flask, React.js, REST APIs, JWT) and AI features (OCR, chatbot); integrated and tested them with the frontend team.

Software Engineering Intern (Python Full Stack) — Aug 2025 – Feb 2026
Kiran Academy Pvt. Ltd., Pune

- Developed REST APIs (Django REST Framework) for 200+ users at 99.5% uptime; wrote unit and integration tests across 10+ modules and identified and fixed defects.
- Tuned performance through SQL query optimization, cutting response time by 67% (850ms to 280ms); completed 20+ peer code reviews and documentation within Agile/Scrum sprints using Git and CI/CD.

Web Development Intern — Mar 2024 – Sep 2024
Orrizont Consultancy Services Pvt. Ltd., Dhule

- Responded to and resolved 30+ production issues through root-cause analysis, improving reliability by 20%; optimized SQL queries (database response time reduced by 25%).

Projects

Digital Bhediya – Production Client Website — Live — GitHub
React.js · Django · Django REST Framework · MySQL

- Delivered a client website end-to-end, from requirements to testing and production-ready deployment, with post-launch support.

AI-First CRM for HCP Interaction Management — Live — GitHub
Python · FastAPI · LangGraph · SQLAlchemy · PostgreSQL · React 19

- Built a FastAPI + SQLAlchemy backend with 7 REST endpoints and a 5-tool LangGraph pipeline that turns natural-language notes into structured CRM data; tested and deployed end-to-end.

AI Career Copilot – Resume Analyzer — Live — GitHub
Python · Django REST Framework · PostgreSQL · Docker · CI/CD

- Built and validated an AI matching service (85% accuracy across 500+ evaluations); cut response time by 80% (900ms to 180ms); deployed with CI/CD.

AI Job Application Automation Workflow (n8n) — GitHub
n8n · Gmail API · Google Sheets API · Webhooks

- Automated job discovery and tracking by integrating Gmail, Google Sheets, and REST APIs; monitored and debugged workflow executions.

Real-Time Chat System — *React.js · Node.js · Django Channels · WebSockets · PostgreSQL*

- Built a real-time messaging platform with a React.js frontend supporting 100+ concurrent users; optimized the database schema, reducing query time by 35%.

Education

B.E. Computer Engineering — June 2026
North Maharashtra University — CGPA: 8.30
Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, OOP

Certifications

- **Python Full Stack Certification – Kiran Academy** — View Certificate
- **Python Full Stack Internship – Kiran Academy** — View Certificate
- **HackerRank Problem Solving Certification** — View Certificate
- **AWS Cloud Practitioner Essentials – Course Completed** — View Certificate
- **Agentic AI Starter Course Certification** — View Certificate
